

Is Your Project Shovel Ready?

A Project Selection Checklist

- Is the design complete?
- Is design current (codes; regulations; specifications)?
- Is all Right of Way acquired?
- Are utilities out of the way?
- Are environmental permits on hand?
- Is there broad public acceptance?
- When can construction begin (weather delays)?
- Has there been a constructability review?
- Have Operations and Maintenance staff reviewed the project?
- Has the design and construction team conducted a field review in the past 60 days?
- Is the original design team still available and under contract?
- Is there a construction oversight team identified?
