

"Existing contracts offer the best option for getting stimulus money out the door quickly."

Mary Davie, assistant commissioner of the General Services Administration's Federal Acquisition Service—March 16, 2009

## Stantec Federal Government Contract Delivery Vehicles

Stantec provides architecture, engineering, and environmental services to federal government entities across the United States. One way we can assist our clients in rapidly accessing and utilizing new federal stimulus dollars in the environmental sector is via several nationwide GSA Federal Supply Schedules (FSS). These provide you direct and rapid access to our staff and services through existing government-wide acquisition vehicles.

Our services are offered through over 10,000 employees operating out of more than 130 locations in North America.

### Advantages

- GSA schedules offers use of our pre-approved, audited rates, plus shorter lead times for contracting and lower administrative costs for the government
- Orders placed against a GSA Schedule contract are considered full and open competition
- GSA Schedule orders have an average acquisition time of 14 days
- A Blanket Purchase Agreement can be established for recurring tasks
- There is no maximum contract value

GSA has approved Stantec to complete services under Federal Supply Schedule 899—Environmental Services, Special Item Numbers (SINs):

- SIN 899-1: Environmental Planning Services
- SIN 899-2: Environmental Compliance Services
- SIN 899-4: Waste Management Services
- SIN 899-7: Geographic Information Systems
- SIN 899-8: Remediation Services
