

Stantec is action sports

Bike Parks & BMX Racetrack Facilities

44,000

Square feet of bike parks, trails, and jumps created for beginner, intermediate, and advanced riders in the community of Henderson, NV. Included in the site design is the first asphalt-coated pump track outside of Germany.

Bike parks that get your adrenaline pumping

Action sports are all about freedom and passion expressed through movement, speed, and skill. Our action sport pro-turned-designers feel that passion first-hand and work to infuse the thrill of being an athlete into all of their designs.

Whether it's BMX facilities, pump tracks, jumps, or trails, our bike park designs incorporate defined pedestrian and spectator space and use integrated landscaping elements to create unique experiences. From Olympic training centers to local parks, we ensure the whole community can be welcomed into the bike park whether participating or viewing in awe.

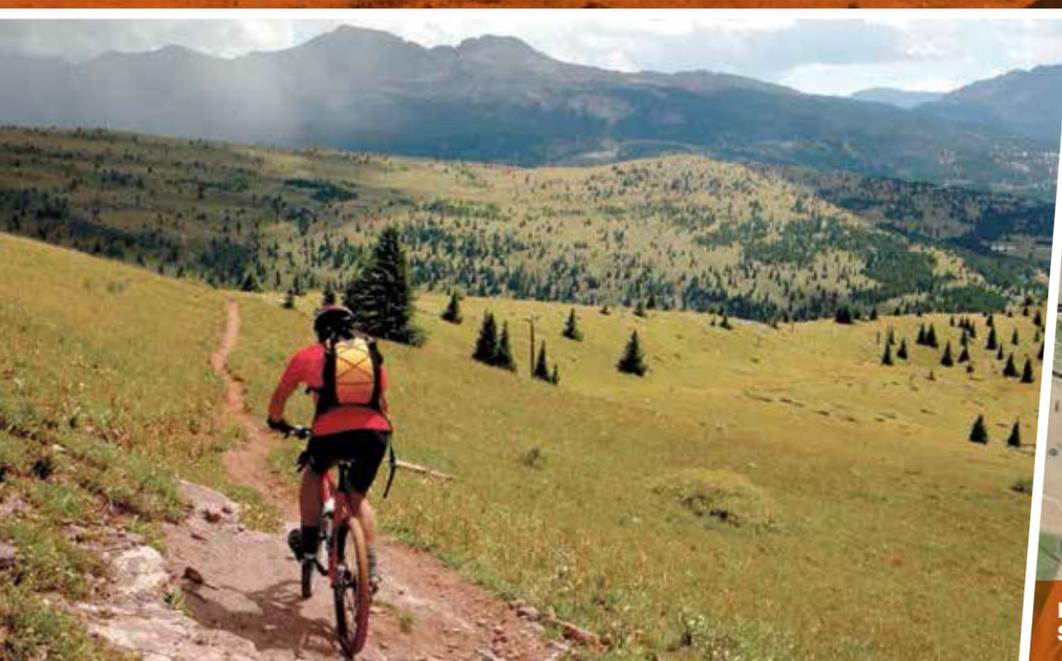

Our team holds the largest, most notable portfolio of bike, motocross, and skateparks worldwide. Because our designers live outside of the box, they're adept at creating functional, site integrated, and visually spectacular spaces that give a cohesive sense of place and become a source of community pride.

- Site & environmental permitting
- Design documentation
- Bidding services
- Construction administration
- Project closeout & commissioning

Our designers get in on the action

Our team brings more to the table than experienced landscape architects and engineers—we're also athletes ourselves.

As a former professional BMX bike racer, key designer Mike McIntyre has turned a passion into a profession, tapping into his knowledge as a user to inform his creativity and designs. With 20 years of professional practice and 16 years dedicated to public bike and skateparks, he is a globally recognized expert who even helped formulate BMX racing standards used in today's track development.

“The key to designing spaces that work for the community and its youth is public and end-user engagement coupled with inventiveness.

Mike McIntyre

Design with community in mind

We're active members of the communities we serve. That's why at Stantec, we always *design with community in mind*.

We collaborate across disciplines and industries to bring buildings, energy and resource, environmental, and infrastructure projects to life. Our work—engineering, architecture, interior design, landscape architecture, surveying, environmental sciences, project management, and project economics, from initial project concept and planning through design, construction, and commissioning—begins at the intersection of **community, creativity, and client relationships**.

Our local strength, knowledge, and relationships, coupled with our world-class expertise, have allowed us to go anywhere to meet our clients' needs in more creative and personalized ways. With a long-term commitment to the people and places we serve, Stantec has the unique ability to connect to projects on a personal level and **advance the quality of life in communities** across the globe. Stantec trades on the TSX and the NYSE under the symbol STN. Visit us at stantec.com or find us on social media.
