Cautionary Note Regarding Forward-Looking Statements

Certain statements contained in this presentation constitute forward-looking information and statements within the meaning of applicable securities law (collectively, "forward-looking statements"). Forward-looking statements in this presentation include, but are not limited to: our financial targets (including our annual net revenue growth, adjusted EBITDA, and net income targets; employee count; and ROIC target), our anticipated business and geographical mix, our expectations regarding economic and industry trends in the sectors and regions in which we operate, our acquisition strategy, our capital deployment strategy, and our overall growth strategy. These statements provide information about management’s current expectations and plans relating to the future. Readers are cautioned that this information may not be appropriate for other purposes. Stantec does not undertake any obligations to publicly update or revise any forward-looking statements except as required by law.

By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. Readers are cautioned not to place undue reliance on our forward-looking statements since a number of factors could cause actual future results, conditions, actions, or events to differ materially from the targets, expectations, estimates, or intentions expressed in these forward-looking statements. Risk factors include, but are not limited to, the risk of an economic downturn, decreased spending in the private and/or public sectors, changing market conditions for Stantec’s services, and the risk that Stantec fails to capitalize on its strategic initiatives. Investors and the public should carefully consider these factors, other uncertainties, and potential events, as well as the inherent uncertainty of forward-looking statements when relying on these statements to make decisions about our company. For more information about how other material risk factors could affect our results, please refer to the Risk Factor section in our 2019 Annual Report and Q1 2020 Management’s Discussion and Analysis incorporated herein by reference. Readers can access these documents by visiting EDGAR on the SEC website at sec.gov or by visiting the CSA website at sedar.com or on Stantec’s website at stantec.com.

In determining our forward-looking statements, we consider material factors including assumptions about the performance of the Canadian, US, and global economies in 2020 and beyond and their effect on our business. These key factors and assumptions are outlined thoroughly in our press release dated December 3, 2019. Unless otherwise indicated, all amounts expressed in Canadian dollars.

|                   |                             | ▲ Ramp-up of major transportation projects |
| Global            | 18%                         | ▼ Some delays in private sector work expected  
|                   |                             | ▲ Partially offset by recent project awards in Water |

Nominal organic net revenue retraction expected for Q2 20, partially offset by US/Canadian exchange rate
2020 Outlook - Guidance Withdrawn

Net Revenue
• Unable to reliably forecast net revenues for second half of 2020

Project Execution
• Committed to continued strong project execution
• Monitoring quality of utilization
• Less than 50% of contracts are fixed fee

Cost Management
• Voluntary compensation reductions at Board and Senior Leadership levels
• Staffing strategies implemented while preserving quality of workforce
• Significantly reduced discretionary spending
2020 Outlook - Liquidity and Capital Allocation

Leverage
• Expect to remain within internal guideline of 1.0x to 2.0x net debt to adjusted EBITDA
• No near-term debt maturities
• More than 70% of debt is floating rate

Liquidity
• >$250 million available liquidity on committed revolving credit facility
• $600 million additional funding available through accordion feature

Capital Allocation
• Non-essential capital expenditures on hold
• M&A activity on hold
• Dividend re-affirmed
• Share buy back activity slowed

Continued balance sheet strength and disciplined capital deployment
ESG leadership that drives value
Environmental leadership

Stewardship and innovation that drives value
Stantec’s recognized leadership in sustainable design helps us win projects

Reducing our impact:
In 2019 we achieved a 39% reduction in scope 1 and 2 emissions from our 2013 baseline – We expect to surpass our 2028 reduction target of 40%

Recent accolades:
- Corporate Knights 2020
  Ranked as Top 100 Most Sustainable Companies in the World
- CDP Climate Leader
  2019 CDP score of A-
- Top 100 Smart City Partners
  Newsweek magazine

Social leadership

Embracing and engaging diverse groups
Improves the performance of our business and our ability to support clients

SaferTogether: A culture of safety
Indigenous Communities: Partnering and building capacity
Inclusion and Diversity: Targeting > 85% engagement

Inclusion in:
- The Bloomberg Gender-Equality Index
- The Jantzi Social Index

Safety Statistics by Year

TRIR
A lagging indicator that tracks the number of recordable incidents that a company experiences during a year, normalized to 100 full-time employees.
A low TRIR score is desirable.

LISI
An index composed of leading indicators that measures proactive and preventive activities. Identifying leading indicators is intended to reduce the number of safety incidents that occur and to promote a proactive approach to health and safety.
A high LISI score is desirable.
Strong governance

A diverse board and values-based leadership
A board dominated by independent directors from exceptional backgrounds and leadership driven by clear values position Stantec for the future.

Business Conduct:
- 95% compliance with mandatory ethics training in 2019
Our Strategic Plan
(Launched December 3, 2019)

SEVA résidences – foot bridge and marsh development
Candiac, Québec
Our vision

To be a top 10 global design firm that maximizes long-term, sustainable value

- Pure play design focus
- Strong alignment with shareholders
- Earnings growth
- Disciplined capital allocation

Peace River Regional Reservoir
Bradenton/DeSoto County, Florida, United States

ENERGY REMIX

1) United Nations by 2030  
2) Navigant Research by 2030  
3) IEA by 2025
Our strategy

To grow and diversify sustainably for the benefit of our clients, employees and shareholders.

We will do this through
Strong execution, efficient operations, and disciplined capital allocation while delivering a great client experience.

We will measure our success through
Strong earnings per share growth, improved returns on invested capital, balance sheet stability, employee engagement and client satisfaction.
Our capital allocation philosophy

Focused on achieving the best risk adjusted returns

Operating cash flow

- Sustaining CapEx
- Maintaining a strong balance sheet
- Base dividend

Excess Cash Flow

- Share buyback
- Growth
  - Organic and innovation
  - Acquisitions

EPS Growth

Our core commitments

Competing capital for the best risk adjusted returns
Our Targets

Net revenue: >10% CAGR

Adjusted EBITDA margin: 16-17% of net revenue

Adjusted earnings per share: >11% CAGR

Return on invested capital: >10%
Concluding Remarks

Fremont Water Pollution Control Center Expansion
Fremont, OH, USA
In Conclusion

End Market Resiliency
- Design and engineering sector proved to be resilient in previous downturns
- Well positioned to withstand impacts of pandemic due to geographic and business diversification
- Strong mix of public and high-quality private sector clients

Strong Financial Position
- Solid cash flow generation
- Prudent use of leverage
- Robust access to capital

Client Connection Remains Strong
- Team is delivering solutions to clients and communities that address COVID-19 constraints
- Innovating and commercializing solutions to address evolving needs
- Enhancing services with new product offering
